TCXMED is highly sophisticated, easy to use Practice Management and Medical billing Software. With over three decades of experience in the medical billing industry, and in alliance with software developers that represent a total of over 100 years experience and thousands of users, Tele Comm provides practice management software at a fraction of the cost of comparable packages. Features include Microsoft Office integration, built in HL7 interface for EMR/EHR, and compatibility with old and new Microsoft products including the latest Microsoft Operating System, Windows 7. The software provides for electronic billing to all insurance companies, electronic receipt of insurance payments, electronic billing to patients, and on-line and card swipe or pin pad receipt of patient payments. The appointment booking system will automatically check patient insurance eligibility, and has an appointment reminder feature that will call, email, and text patients, and can record voice messages from patients. There are hundreds of report options, and a query function that can be used to create custom reports that can be exported to Microsoft Office to produce letters and spreadsheets. All of this high technology is bundled in an easy to use package that can be run with or without a mouse. It is so simple to use that most offices are up and running on the day of installation.

TCXMED PRACTICE MANAGEMENT SOFTWARE $6,150.00
This basic package will connect up to 5 users. Additional users can be connected for $199 each. This package includes 18 hours of training. Additional training is available at $89 per hour. Training can either be performed over the Internet or on site with travel time included. The package also includes 1 preconfigured encounter form, and 1 preconfigured query. High speed static IP Internet is required for updates and support. The monthly software service contract fee for the basic package is $220, and additional users are $10 each.

TCXMED INTEGRATED ELIGIBILITY VERIFICATION.. $99.00
The monthly fee for this service is $39. This includes unlimited verification of participating insurance companies and up to 200 verifications of non-participating insurances, such as Medicare and Medi-Cal. Non-participating verifications over 200 are charged at $0.15 each. Eligibility checking can take place directly from the appointment book and the results will be returned to the appointment book.

TCXMED INTEGRATED APPOINTMENT REMINDER MODULE $99.00
The monthly fee for this service is $25 per provider per database, and $0.25 per reminder phone call, with unlimited reminder emails and text messages. A phone call is considered successful if a contact is made either with a person or an answering machine. The system will not work with phone calls to phones that have "music while waiting".

TCXMED INTEGRATED SERVER REMOTE BACKUP MODULE.. $99.00
The monthly fee for this service is $19 per month. This module provides for a secured daily remote backup of data through the Internet.
